### Reasons for Allowance

1. In response to the amendment filed on 04/19/2004, the application is allowed.
2. Claims 31-32, 34-43, 45-51, and 55-60 are allowed.

The following is an examiner's statement of reason for allowance:

None of the references of record teaches or suggests a laser apparatus, comprising: a gain medium having an active region to emit an optical beam along an optical path; first and second reflectors positioned in the optical path and defining a laser cavity, the first reflector to reflect a portion of the optical beam as a feedback optical beam to the active region; **a voltage sensor operatively coupled to the gain medium** to monitor voltage across the active region, an optical element positioned in the optical path to induce a wavelength dither in the feedback optical beam, the wavelength dither of the feedback optical beam to **induce a voltage modulation across the active region**; and a control system operatively coupled to **the voltage sensor** and to the optical element, the control system to dither an operating setting of the optical element about a nominal value of the operating setting to induce the wavelength dither, the control system further to adjust the nominal value of the operating setting in **response to the voltage modulation** to tune the optical element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
